

Evaluation of GPT5-3 solution of Problem 1

Correctness

The model correctly showed $\cos(3x) = f(\cos(x))$ (1).

It did not solve the resulting equation exactly (0). 1/10

Reasoning

The model correctly showed $\cos(3x) = f(\cos(x))$ but did not provide the reasoning steps (0).

It did not solve the resulting equation exactly (0). 1/10

0/10

Explanation

The steps are well explained, understandable.

10/10

Communication

Concise. Understandable

10/10

Overall score

1/10
